

Aphrodite’s Harvest & LearnAboutBees

Website Wireframe

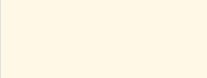

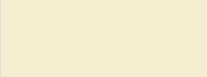

Design Specification, Dimensions & Prototype Flow

Document Type	Wireframe Specification & Prototype Flow
Project	Aphrodite’s Harvest & LearnAboutBees: Website Wireframe Recommendations
Screens Covered	Screen 1: Color Palette Screen 2: Component Library Screen 3 & 4: Homepages
Document Creator	Tanul Agarwal
Wireframe Link	Figma File (view only)

<https://www.figma.com/design/qTWVOX1LRsmshxx5rRgc8t/Wireframe-and-Color-Palette-Aphrodite?node-id=0-1&t=RDt5r2GuPBuk9Ym9-1>

01 - Color Palette

The following color system is extracted from the Figma wireframe. All colors are defined for consistent use across the entire website.

Token	Swatch	Hex	Usage	Notes
color-bg1		#FFF8E7	Primary background - hero, main sections	Warm off-white; evokes honey
color-bg2		#F5EDD0	Secondary background - alternating sections	Slightly deeper cream tone
color-heading		#5C3D11	All headings (H1–H3)	Deep amber-brown; high contrast
color-text		#444444	Body paragraph text	Dark grey; readable on cream bg
color-btn		#F5A623	Primary CTA button fill	Golden amber; strong contrast on brown
color-btn-text		#FFFFFF	Button label text	White on amber for WCAG AA compliance

02 - Component Library (Screen 2)

Screen 2 defines the core reusable UI components. All components share a consistent type scale and color system.

2.1 - Typography Scale

Element	Font Size	Line Height	Font Weight	Usage
Heading (H1)	36–48 px	1.2×	700 Bold	Hero title, section title
Sub-Heading (H2)	24–30 px	1.3×	600 SemiBold	Section intro, card titles
Paragraph	16 px	1.6×	400 Regular	Body copy, descriptions
Button Label	14–16 px	1.0×	600 SemiBold	CTA button text
Caption / Meta	12 px	1.4×	400 Regular	Review names, timestamps

2.2 - Button Component

Component	Primary CTA Button
Width	Auto (min 140 px) - padding driven
Height	48 px (desktop) / 40 px (mobile)
Padding	12 px top/bottom, 28 px left/right
Border Radius	8 px (rounded rectangle)
Background	#F5A623 (Amber)
Text Color	#FFFFFF
Font Size	15 px / 600 weight
Hover State	Background darkens to #D4880F, slight shadow
Active State	Scale 0.97, shadow removed
Disabled State	Background #CCCCCC, cursor not-allowed

03 - Screen Dimensions

The homepage wireframe spans two Figma frames: Screen 3 (mobile/compact layout) and Screen 4 (desktop layout). Dimensions below follow standard web breakpoints.

3.1 - Frame / Viewport Sizes

Frame	Width	Height	Breakpoint	Grid
Screen 3 - Mobile	375 px	~1800 px (scroll)	Mobile	4-col, 16 px gutter
Screen 4 - Desktop	1440 px	~2400 px (scroll)	Desktop	12-col, 24 px gutter
Content Container	1200 px max	-	Both	Centered, auto margin

3.2 - Navbar (Navigation Bar)

Height	72 px (desktop) / 60 px (mobile)
Width	100% viewport width
Logo area	Left-aligned, ~160 × 40 px bounding box
Nav links	Right-aligned, gap 32 px between items
Link font	15 px / 500 weight, color #5C3D11
Background	#FFFFFF or transparent over hero
Sticky behavior	Sticks to top on scroll, adds drop-shadow
Mobile	Collapses to hamburger menu (≡)

3.3 - Hero Section

Height	560 px (desktop) / 320 px (mobile)
Width	100% viewport
Heading	H1, 48 px, centered or left-aligned
Sub-heading	H2, 24 px, max-width 600 px
CTA Button	48 px tall, centered below sub-heading, margin-top 32 px
Background	Full-bleed image with #5C3D11 overlay at 40% opacity
Image placeholder	1440 × 560 px (desktop) / 375 × 320 px (mobile)
Padding	80 px top/bottom (desktop), 48 px (mobile)

3.4 - Services Section

Section padding	80 px top/bottom (desktop), 48 px (mobile)
Section heading	H2, centered, margin-bottom 48 px
Card grid	3 columns desktop, 1 column mobile, gap 32 px
Card width	$(1200 - 64) \div 3 = \sim 378$ px (desktop)
Card height	Auto (image + text stack)
Card image	378 × 220 px (desktop), full-width mobile
Card padding	24 px all sides
Card radius	12 px
Card shadow	0 4px 16px rgba(0,0,0,0.08)
Service items	Services, Courses, Varroa Removal

3.5 - Reviews Section

Section padding	80 px top/bottom
Section heading	H2, "Our Customers Trust Us!", centered
Review grid	3 columns desktop, 1 column mobile, gap 24 px
Review card width	$(1200 - 48) \div 3 = \sim 384$ px
Review card padding	24 px
Avatar image	64 × 64 px, circular (border-radius 50%)
Review text	14–16 px, max 4 lines before truncation
Star rating	Optional, 20 × 20 px per star, color #F5A623
Background	#F5EDD0 (Background 2 shade)

04 - Spacing & Grid System

All spacing follows an 8 px base grid. Margins and padding should be multiples of 8.

Token	Value	px	Used For
space-xs	0.5rem	8 px	Internal component micro-gaps
space-sm	1rem	16 px	Text-to-text gaps, inline padding
space-md	1.5rem	24 px	Card padding, small section gaps
space-lg	2rem	32 px	Component-to-component gaps
space-xl	3rem	48 px	Section internal padding (mobile)
space-2xl	5rem	80 px	Section top/bottom padding (desktop)

05 - Prototype Interaction Flow

The following table defines all prototype connections to be built in Figma. Each row represents one clickable interaction.

From (Frame)	Trigger	Navigate To	Transition
Homepage - Hero	Click: 'Learn More' CTA button	Services Section (anchor)	Smart Animate, Ease In-Out, 300ms, scroll down
Navbar - 'Services'	On Click	Services Section (anchor)	Instant or scroll to frame
Navbar - 'Courses'	On Click	Services Section (anchor)	Instant or scroll to frame
Navbar - 'Contact'	On Click	Footer / Contact Section	Scroll, 300ms
Services Card 1 - 'Services'	On Click	Services Detail Screen	Push Right, 300ms (future screen)
Services Card 2 - 'Courses'	On Click	Courses Detail Screen	Push Right, 300ms (future screen)
Services Card 3 - 'Varroa Removal'	On Click	Varroa Detail Screen	Push Right, 300ms (future screen)
Reviews Section	Mouse Hover on card	Hover state on card	Smart Animate, shadow elevation, 150ms
Footer - Logo	On Click	Homepage - Top (Hero)	Smart Animate, scroll to top, 300ms
Footer - Social icons	On Click	External URL (new tab)	Open URL
Button - hover	Mouse Enter	Button hover state	Smart Animate, darken bg, 150ms ease
Button - hover	Mouse Leave	Button default state	Smart Animate, restore, 150ms ease
Mobile - hamburger	On Click	Nav Menu Overlay	Smart Animate, slide from right, 250ms
Nav Menu Overlay	Click 'X' close	Homepage	Smart Animate, slide out right, 200ms

Figma Tip: Use 'Fix position when scrolling' on the Navbar frame so it stays sticky across all prototype previews.

06 - Design Refinements

The following suggestions improve UX without changing the visual identity or layout of the wireframe.

Navbar

Add a visible active state to nav links (underline or amber dot indicator) so users know which section they're on.
Ensure the logo/brand name 'Aphrodite' has at least 44 × 44 px tap target on mobile.

Hero Section

The hero heading 'Learn About Bees' should be the largest text on the page (H1, ~48 px) with a clear contrast overlay on the background image to pass WCAG AA (contrast ratio ≥ 4.5:1).

The CTA button should have a descriptive label such as 'Explore Our Services' rather than a generic label.

Services Cards

Each service card (Services, Courses, Varroa Removal) should have a consistent image aspect ratio of 16:9 and the same card height so the 3-column grid appears balanced.

Add a secondary micro-CTA link ('Learn more →') below each card description to give users a clear next action.

Reviews Section

The heading 'Our Customers Trust Us!' (Screen 4) is stronger than the generic 'Reviews' label in Screen 3. Use the Screen 4 version across both layouts.

Truncate review text to 4 lines with a 'Read more' toggle to keep cards uniform in height.

Add star ratings (1–5 stars, color #F5A623) below each reviewer avatar for quick visual scanning.

General Accessibility

All images must include descriptive alt text (e.g., 'Beekeeper inspecting honeycomb frame').

Ensure a focus-visible ring on all interactive elements for keyboard navigation.

Minimum touch target size: 44 × 44 px for all buttons and links on mobile.

07 - Footer Design Suggestions

The wireframe does not yet include a footer. Below are three recommended footer layouts, from minimal to full-featured.

Option A - Minimal Footer (Recommended for MVP)

Height	80–100 px
Background	#5C3D11 (Brown)
Text color	#FFFFFF
Layout	Single row, 3 columns: Logo Nav links Social icons
Left column	Logo + tagline: 'Pure Honey, Pure Passion' (Suggestion)
Center column	Quick links: Home, Services, Courses, Contact
Right column	Social icons: Instagram, Facebook, YouTube (24×24 px each)
Bottom bar	8px border-top #F5A623, '© 2025 Aphrodite Bee Farming. All rights reserved.'
Font size	13–14 px / color #FAF6EE

Option B - Standard Footer (Balanced)

Height	240–280 px
Background	#5C3D11 (Brown) top section + #3D2408 bottom bar
Layout	4-column grid: Brand Services Learn Contact
Column 1 - Brand	Logo, Short about blurb (2 lines), Social icons
Column 2 - Services	Services, Courses, Varroa Removal, Honey Shop
Column 3 - Learn	Blog, FAQs, Beekeeping Tips, About Us
Column 4 - Contact	Phone number, Email, Location/address, 'Get in Touch' button
Bottom bar	Full - width #3D2408, copyright text left, Privacy Policy + Terms right
Divider	1 px line color #F5A623 between main footer and bottom bar
Spacing	40 px top/bottom padding, 24 px column gap

Option C - Rich Footer (Full Engagement)

Height	360 - 400 px
Background	Gradient: #5C3D11 → #3D2408
Top strip	Email newsletter signup: 'Stay updated on our latest honey tips' + input field + Subscribe button
Main grid	5 columns: Brand Services Resources Community Contact

Community col	Link to reviews, blog, events, seasonal offers
Trust badges	Row of certifications / quality marks (e.g., 'Australian Certified Honey')
Bottom bar	Logo, copyright, Privacy, Terms, Accessibility statement
Bee motif	Subtle honeycomb SVG pattern in footer background at 5 - 10% opacity
Back-to-top	Floating amber button (↑) bottom-right: 44×44 px, appears after 300px scroll

Footer - Component Specs (Applies to all options)

Element	Specification
Footer logo	White version of the brand logo, height 36 px
Link color	#FAF6EE default, #F5A623 on hover
Social icons	24 × 24 px , circular container , hover: amber fill
Newsletter input	Height 44 px, border 1 px #F5A623, border-radius 8 px, bg #FFFFFFF10
Subscribe button	Height 44 px, amber fill #F5A623, white text, radius 8 px
Back-to-top button	44 × 44 px, fixed bottom-right, amber circle, white ↑ icon, z-index 100
Mobile behavior	Stack columns to single column, reduce padding to 32 px, links collapse to accordion
Bottom bar font	12 px, color #FFFFFFF80, links underline on hover

End of Specification Document

Apply these specs inside Figma by updating frame dimensions, adding Auto Layout with the defined spacing tokens, then wire the prototype connections listed in Section 05.
