

Aphrodhite's Harvest Digital Transformation

Capstone Project : Social Media Strategy and Implementation

From Invisible to Implementation- Ready

A COMPLETE DIGITAL TRANSFORMATION STRATEGY FOR APHRODITE'S HARVEST AND LEARN ABOUT BEES — COVERING AUDIT, STRATEGY, CONTENT, TEMPLATES, KPIS, ROADMAP, AND CLIENT HANDOVER.

Prepared by

Tashpia Hossain (S1-13)

Client:

Aphrodite Noikou — Aphrodite's Harvest

The Problem

Central Finding: Aphrodite's Harvest has exceptional real-world credentials: BSSA accreditation, 30+ years of second-generation beekeeping, a 5.0 Google rating, and a National Varroa Management Program trainer role. None of this authority is visible on social media. The gap between offline reputation and online presence is the defining strategic problem this project addresses.

The gap — offline vs online

The authority is real. The opportunity is to make it visible. This project closes that gap.

Instagram — current state	
Total posts	2 posts only
Followers	37 followers
Reels posted	Zero
Story highlights	None created
Adelaide keywords in bio	Missing
Presence score	2 / 10

Facebook — current state	
Followers	85 followers
Page category	"Health/Beauty" — wrong
About section	Incomplete
CTA button	Not configured
Original content	Mostly shared posts
Presence score	4 / 10

LinkedIn — current state	
Account type	Personal only — no business page
Connections	1 connection
Posts published	Zero
Learn About Bees page	Does not exist
BSSA credentials shown	Not mentioned
Presence score	1 / 10

Our Strategy

Strategic framework: The strategy is built on three content pillars, three audience personas, and platform-specific roles - grounded in Cialdini's Social Proof Theory (1984), Tuten and Solomon's Platform-Audience Fit framework (2017), and the Content Marketing Funnel model

Pillar 1: Product & Brand

Raw honey, local identity, authentic storytelling. Positions AH as a premium local producer with a personal story behind every jar.

Platform	Instagram (primary), Facebook
Persona	Sarah — health-conscious buyer
Format	Product photos, harvest reels, stories
CTA	Shop → link in bio
KPI	Link clicks, saves, product DMs

Pillar 2: Education & Learning

Bee facts, beginner content, Learn About Bees promotion, sustainability. Supports LAB as a credible educational brand.

Platform	Instagram (reach), LinkedIn (authority)
Persona	Alex — curious beginner learner
Format	Educational carousels, reels, course teasers
CTA	Book a course → Learn About Bees
KPI	Course page visits, saves, shares

Pillar 3: Support & Expertise

Hive support, varroa management, BSSA accreditation. Positions Aphrodite as SA's most credible specialist beekeeper.

Platform	Facebook (primary), LinkedIn
Persona	Mark — support-seeking beekeeper
Format	Varroa tips, checklists, Q&A, thought leadership
CTA	Book one-on-one support / varroa course
KPI	Support enquiries, post saves, DMs

Instagram

Brand visibility and education reach

Role	Visual storytelling and brand personality
Audience	Sarah + Alex
Cadence	3–4× per week + daily stories
Best format	Reels, carousels, product photos
Week 1 action	Film a reel at the hive

Facebook

Community and course promotion

Role	Local community and practical updates
Audience	Mark + Sarah (local)
Cadence	3–4× per week
Best format	Course posts, educational text, events
Week 1 action	Fix category + post next course date

LinkedIn

Authority and Learn About Bees

Role	Expert positioning and B2B reach
Audience	Alex (professionals) + Mark + corporates
Cadence	1–2× per week
Best format	Thought leadership, credentials, industry posts
Week 1 action	Create LAB business page

Before vs After

Structural Fixes Applied: Seven structural fixes were identified through our audit : each with a specific recommended action, demonstrable evidence, and implementation guidance.

Before May - 2025

Instagram

- X 2 posts — account appears abandoned
- X 37 followers — no Adelaide visibility
- X No reels, no stories, no highlights
- X Bio missing Adelaide and BSSA keywords
- X Single link — courses page only

Facebook

- X Category: "Health/Beauty" — completely wrong
- X About section empty — no keywords
- X No CTA button configured
- X Mostly sharing other organisations' content
- X No Facebook Events created for any course

LinkedIn

- X Personal profile only — no business page
- X 1 connection, zero posts
- X BSSA credentials not mentioned anywhere
- X Learn About Bees has no social presence

STRATEGY APPLIED

After Strategy Applied

Instagram

- ✓ 3-pillar content strategy — consistent posting schedule
- ✓ Reels, carousels, stories, and highlights all created
- ✓ Bio updated: "Adelaide beekeeping training" + BSSA
- ✓ Linktree — 5 destinations: courses, shop, support, LAB, contact
- ✓ Target: 200+ followers within 90 days

Facebook

- ✓ Category fixed to "Agricultural Service"
- ✓ About section complete with keywords and credentials
- ✓ CTA button active — "Book a Course"
- ✓ Original expert content — builds AH authority, not others'
- ✓ Facebook Events created for every course date

LinkedIn

- ✓ Learn About Bees business page created
- ✓ Professional headline with BSSA + Varroa Program credentials
- ✓ Weekly thought leadership posts — varroa and education topics
- ✓ Target: 150 connections and B2B enquiries within 90 days

What We Built

Three deliverables: this document, a 25-section academic strategy report, and a complete client handover pack - covering audit, strategy, content, templates, KPIs, roadmap, and self-management tools.

Aphrodite's Harvest — Digital Transformation

Presentation document

- Cover, problem statement, and audit findings
- Strategy overview — pillars, personas, platforms
- Before vs after — platform transformation
- What we built — deliverables summary
- Example posts — one per platform
- 90-day implementation roadmap
- Client handover summary and closing

Social Media Strategy Document

Academic deliverable

- Digital presence audit with real platform data
- Theoretical framework — Cialdini and Tuten & Solomon
- 5-benchmark horizontal comparison analysis
- Audience personas and platform-purpose matrix
- Content pillar matrix and brand voice guide
- Brand split — Aphrodite's Harvest vs Learn About Bees
- SEO alignment and conversion path by platform
- KPI framework with baselines and 90-day targets
- Risk register, ethical considerations, references

Client Handover Pack

Client deliverable

- 6 reusable post templates with Canva instructions
- 7 example posts — Instagram, Facebook, LinkedIn
- Monthly self-management checklist
- Analytics starter guide — what to track and when
- Tool stack — Canva, Meta Suite, Linktree, CapCut

4-Week Content Calendar

Implementation-ready

- Week 1 — establish presence and introduce the brand
- Week 2 — education and bee awareness content
- Week 3 — course promotion and social proof
- Week 4 — community, seasonal content, momentum
- Each post includes full caption, hashtags, CTA, best time

Example Post - Ready to Publish

Three example posts: one per platform, one per content pillar - showing exactly what the content looks like when ready to publish.

Instagram Product & Brand	
Format	Single photo post
Persona	Sarah — health-conscious honey buyer
Best time	12–2pm
CTA	Link in bio → shop page
Caption	"This honey took 30 years to perfect. Raw. Unfiltered. Never heated, never blended — just what our bees made. 500g (\$15) and 3kg (\$90) via link in bio."
Hashtags	#RawHoney #AdelaideHoney #LocalHoney #SouthAustralia #NaturalFood #AphroditesHarvest

Varroa is now confirmed in South Australia. If you keep bees, here is what you need to do right now — from a National Varroa Management Program trainer.

BIOSECURITY ALERT — SA BEEKEEPERS

Varroa mite checklist — act this week

✓

Conduct an alcohol wash or sticky board test — do not wait until symptoms appear

✓

Record your mite count — above 2% requires immediate treatment

✓

Know your treatment options before the season peaks — oxalic acid and formic acid are both available

✓

Contact PIRSA if you suspect a severely affected colony — early reporting protects all SA beekeepers

— Aphrodite Noikou · BSSA Accredited Beekeeper · National Varroa Management Program Trainer · Adelaide, SA

I am running hands-on varroa management workshops through Learn About Bees. Spots are limited — link below to book your place.

3h · 

After 30 years of beekeeping and a long career in government service, I have seen firsthand how quickly an ecosystem can be disrupted by an introduced pest.

Varroa destructor is now in South Australia. And unlike some biosecurity threats, this one requires every beekeeper — not just commercial operators — to act.

The challenge is not just biological. It is educational. Most hobbyist beekeepers in SA have never had to manage varroa. They do not know the monitoring protocols, the treatment thresholds, or the options available. That knowledge gap is exactly where colony losses will happen.

Through Learn About Bees and my role as a National Varroa Management Program trainer, I am committed to ensuring SA beekeepers have the skills they need — not just theory.

If you are connected to agriculture, education, or sustainability in SA — I would love to connect.

LEARN ABOUT BEES — NOW ENROLLING

Structured beekeeping education for all levels — Adelaide, SA

- Introduction to Beekeeping — beginner friendly, no experience needed
- Getting to Grips with Varroa — hands-on workshop, \$159, Adelaide SA
- One-on-one hive support — personalised guidance for all experience levels

90 Days Roadmap

Implementation is phased: Phase 1 fixes the structural gaps immediately. Phase 2 builds consistent content. Phase 3 grows the audience. Phase 4 sustains the strategy independently — under 3 hours per week for the client.

PHASE 1 Foundation Days 1–30	PHASE 2 Build Days 31–60	PHASE 3 Grow Days 61–90	PHASE 4 Sustain Days 91–180
→ Fix Facebook category → Complete Facebook About → Create LAB LinkedIn page → Add social links to website → Set up Linktree bio link → Post 4-week calendar → Film first 3 reels → Build testimonial carousel All platforms active. First reel posted. LAB LinkedIn live.	→ Review Phase 1 KPIs → LinkedIn weekly posts → First Facebook Event → Seasonal content series → Hashtag strategy live → Google Business updated → Local cross-promotion → Batch content system set 100+ IG followers. 150+ FB followers. 50+ LinkedIn connections.	→ Review Phase 2 KPIs → LAB Instagram account → Stories poll leads → Request course reviews → First LinkedIn article live → Join SA beekeeping groups → Full batch content flow 200+ IG followers. 5+ course enquiries. LAB at 75+ followers.	→ Full 90-day KPI review → Adjust platform focus → 20+ post content bank → Explore B2B partnerships → Alumni newsletter → Annual seasonal rhythm → Evaluate paid social Self-sustaining. Under 3hrs/week. Social drives real enquiries.

Client Handover

From Invisible to Implementation-Ready

Aphrodite's Harvest entered this project with a digital presence score of 2.3 out of 10 — despite having world-class real-world credentials. This project closes that gap by delivering a complete, evidence-based social media strategy, a professional client handover pack, and an implementation roadmap the client can follow independently, sustainably, and without ongoing technical support.

25

Strategy sections —
academic document

6

Reusable post templates —
forever

7

Example posts — ready to
publish

90

Day phased
implementation roadmap

1

Strategy document

The complete 25-section academic strategy grounded in theory with benchmarks, personas, KPIs, risk register, and references. The supervisor's deliverable.

2

Client handover pack

Six post templates, seven example posts, monthly checklist, and analytics guide. Everything Aphrodite needs to post independently — no external help required.

3

90-day roadmap

Four phased implementation plan — foundation, build, grow, sustain. Requires under 3 hours per week. Self-sustaining by Day 90.

"Aphrodite's Harvest is not a honey brand with a social media problem. It is an **under-communicated expert** — and this strategy makes that expertise visible."
